W-1 Comments

Permit #	910491
Approved Date:	Sep 25, 2025

[Sep 16, 2025 11:55 AM]: Commission Staff expresses no opinion as to whether a 100% ownership interest in each of the leases alone or in combination with a "production sharing agreement" confers the right to drill across lease/unit lines or whether a pooling agreement is also required. However, until that issue is directly addressed and ruled upon by a Texas court of competent jurisdiction it appears that a 100% interest in each of the leases and a production sharing agreement constitute a sufficient colorable claim to the right to drill a horizontal well as proposed to authorize the removal of the regulatory bar and the issuance of a drilling permit by the Commission, assuming the proposed well is in compliance with all other relevant Commission requirements.

Issuance of the permit is not an endorsement or approval of the applicant's stated method of allocating production proceeds among component leases or units. All production must be reported to the Commission as production from the lease or pooled unit on which the wellhead is located and reported production volume must be determined by actual measurement of hydrocarbon volumes prior to leaving that tract and may not be based on allocation or estimation. Payment of royalties is a contractual matter between the lessor and lessee. Interpreting the leases and determining whether the proposed proceeds allocation comports with the relevant leases is not a matter within Commission jurisdiction but a matter for the parties to the lease and, if necessary, a Texas court of competent jurisdiction.

The foregoing statements are not, and should not be construed as, a final opinion or decision of the Railroad Commission.; [RRC STAFF Sep 17, 2025 2:09 PM]: Changed well count from 3 to 6.; [RRC STAFF Sep 17, 2025 2:10 PM]: Changed Nearest Distance from the First/Last Take Point (Heel/Toe) to a Lease Line from 100 to 1.; [RRC STAFF Sep 17, 2025 2:11 PM]: Changed Nearest Perpendicular Distance from Any Take Point to a Lease Line from 1 to 619.; [RRC STAFF Sep 17, 2025 2:11 PM]: Changed BHL survey from A-1481 to A-693.; [RRC STAFF Sep 18, 2025 1:26 PM]: There have been problems identified with this permit (see problem letter attachment).
