Subject: Fwd: Crenshaw Title

Mr. Crenshaw,

I stopped the checks before they went out this morning because when I looked at them they were all the same amounts. I inquired about the amounts and this is what my manager sent to me. I spoke with him and he doesn't have a problem dividing it up and paying you the way you believe the ownership is divided but please look at his email below.

The acreage was broken down like this:

Tract 1 - 221.771 - 50% ownership

Tract 2 - 138.275 - 75% ownership

Tract 3 - 73.810 - 75% ownership

For a total of 269.9492 NMA = \$107,979.68 divided 4 ways or whatever way you guys have agreed upon. Please see the email attached and let me know how to proceed. Regardless of how we divide the total combined checks will equal to \$107,979.68.

Thank you,
